## CUSTOM

## Roller Shades

Ehria S Solar Brnedo

## How To Measure Quickly \& Accurately

Inside Mount

## Measure Width

Measure inside the window frame horizontally in 3 places to the nearest $1 / 8$ inch: top, middle \& bottom.
The shortest measurement = your width.

## Measure Height

Measure inside the window frame
vertically in 3 places to the nearest
$1 / 8$ inch: left, middle \& right.
The longest measurement = your height.

Outside Mount

## Measure Width

Measure horizontally to the nearest $1 / 8$ inch between the outer-most points where you want your window treatments placed. For optimal light control, it's recommended to overlap each side of the window frame by at least an additional $3 / 4$ inch.

Measure Depth
Measure the inside depth to the nearest $1 / 8$ inch at the top of the window frame. Be sure to consider any window obstacles. The shortest measurement = your depth.

## Measure Height

Measure vertically to the nearest $1 / 8$ inch from the top of where you want the window treatment to be installed (headrail location) to the top of the window sill, or measure to point of desired length if there is no sill. For Outside Mount, window treatments will be made to your exact measurements.

## MEASURING TIPS

- Do not take deductions from your measurements. For Inside Mount, we will make adjustments to ensure a perfect fit.
- For Outside Mount installed outside of the window trim, you may need extension brackets or spacer blocks to account for the trim thickness.

Measure each window - even ones that appear identical.

- All measurements should be to the nearest $1 / 8$ inch.
- Use a metal tape measure as cloth ones may stretch.

Window \& Measuring Terminology

Window Components Terminology

- Collectively, the sill and jambs are called the "window casement" or "frame."

Inside Mount

- Shade fits within window opening.
- Great for windows with beautiful trim.

Outside Mount

- Shade mounts outside window opening.
- Increased light control and privacy.

## 2-on-1 Headrail

- Provides the clean appearance of a single shade with the ability to operate each shade independently.
- Can be mounted inside or outside.

## How to Measure Two Shades on One Headrail (2-on-1 Headrail)

Inside Mount (IM) Installation
(1) Measure Width

Total Shade Width - Measure to the nearest $1 / 8^{\prime \prime}$ between inside surfaces of window frame; at the top, middle, and bottom.
Record the narrowest width of the three.
Left Shade Width - Measure the width that you want the left shade to cover. Order this shade first when placing your order.
Right Shade Width - Measure the width that you want the right shade to cover.
(2) Measure Height

Overall Shade Height - Measure to the nearest $1 / 8^{\prime \prime}$ from inside surface at top of window to top of sill; at the left, middle, and right.
Record the tallest height of the three.
(3) Measure Depth

Measure exact depth of window casing making note of any obstacles, i.e. handles, tracks, or cranks, that could interfere with the blind or shade function. Use the shortest depth.

## Outside Mount (OM) Installation

(1) Measure Width

Overall Shade Width — Measure to the nearest $1 / 8$ " between outermost points where shade is to be placed.
Add an additional 3 " to 6 " to total width for maximum privacy.
Left Shade Width - Measure the width that you want the left shade to cover. Order this shade first when placing your order.
Right Shade Width - Measure the width that you want the right shade to cover.
(2) Measure Height

Overall Shade Height - Measure to the nearest $1 / 8^{\prime \prime}$ from where top of shade will be located to top of sill or, measure to point of shade reach if no sill.

## 2-ON-1 HELPFUL NOTES

- Available in Continuous Cord Loop Only.
- Each shade operates separately.
- There will be a gap between the fabric on the left and right shades to operate independently
- Light gap is $1^{1 / 16} \mathrm{in}$. - (Light Gap is the space needed between the 2 shades to ensure proper operation.)
- Left shade controls are on the left side and the right shade controls on the right side
- Always use a metal tape measure as cloth may stretch
- Take all measurements to the nearest $1 / 8$ in. DO NOT take any deductions.
- The factory will make the necessary adjustments to help ensure your shade operates smoothly.

## Fabric and Solar Roller Specifications and Critical Dimensions

Use tables below to assist in purchasing, product size availability and product specifications. Please note the term "Cord Loop", in these pages, refers to a "beaded chain loop."

| Beaded Chain Loop Lengths |  |  |
| :--- | :--- | :---: |
| Default beaded chain length is $2 / 3$ of total shade length. <br> Custom beaded chain lengths can be requested at time of order. <br> Custom beaded chain lengths available in 1" increments from 6" -120 ". <br> Beaded chains are provided in colors Aged Pewter, Gunmetal, and Stainless Steel. |  |  |
| Standard Valance Installation Brackets (Outside Mount) |  |  |
| Your order will include the correct number of installation brackets |  |  |
| for your shade width, as shown in the table below |  |  |

| Single Shade Critical Dimensions (inches) |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: |
|  | Min Width | Max Width | Min Height | Max Height |  |
| Cord Loop | 12 | 144 | 12 | 120 |  |
| Cordless | $18^{1 / 8}$ | 96 | 12 | 120 |  |
| Motorized | 22 | 132 | 12 | 120 |  |
| 2 2-on-1 Critical Dimensions (inches) |  |  |  |  |  |
|  | Min Width | Max Width | Min Height | Max Height |  |
| Cord Loop | 32 | 144 | 12 | 120 |  |
| Cordless | N/A | N/A | N/A | N/A |  |
| Motorized | N/A | N/A | N/A | N/A |  |

| Shade Installation Brackets |  |  |  |
| :---: | :---: | :---: | :---: |
| Your order will include the correct number of installation brackets for your shade width, as shown in the table below |  |  |  |
|  | Number of Brackets |  |  |
| Shade Width (inches) | Cord Loop (Cassette Valance) | Cordless | Motorized |
| Up to 36 | 2 | 2 | 3 |
| 36 to 54 | 3 | 3 | 4 |
| 54 to 72 | 4 | 4 | 5 |
| 72 to 108 | 5 | 5 | 6 |
| 108 to 144 | 6 | N/A | 7 |

Cord Loop Open Roll and Standard Valance will have 2 mounting brackets regardless of width.

| Light Gaps (Fabric width is narrower than the finished shade) |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | Light Gaps Per Side (inches) |  |  |  |
| Operating System | Lift Control |  | Inside Mount |  | Outside Mount |  |
| Cord Loop | Left or right control, right is standard. |  | Up to $3 / 4$ |  |  | 0 |
| Cordless | Handle operates shade |  | Up to $9 / 16$ |  |  | 0 |
| Motorized | Right control only |  | Up to 5/8 |  |  | 0 |
| Cassette valance typically has the largest light gap. <br> For standard 2-on-1 shades, controls will be located on the left side of the left shade and on the right side of the right shade. |  |  |  |  |  |  |

| Drop height tolerance is $+/-1 / 2$ inch. Cassette valance will arrive with fabric insert. This cannot be overridden. |  |  |  |  |  |  |  |  |  |  |  |  |  |  |

## Banded Roller Product Specifications and Critical Dimensions

Use tables below to assist in purchasing, product size availability and product specifications.
The bottom bar is wrapped in fabric by default. This cannot be overridden.

| Cord Loop Lengths |  |  |
| :---: | :---: | :---: |
| Ordered Drop (inches) |  |  |
| $0-24$ | Length (feet) |  |
| $24-48$ | 1 |  |
| $48-72$ | 2 |  |
| $72-96$ | 3 |  |
| $96-108$ | 4 |  |
| $108-120$ | 5 |  |
| Fabric cords are provided in Ivory, Graphite, Light Gray, Taupe, and White. <br> Custom Cord Loop lengths available in 12" increments between 12" - 72". |  |  |

| Your order will include the correct number of installation brackets <br> for your shade width, as shown in the table below <br> Number of Brackets |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |
| Shade Width (inches) | Cord Loop | Cordless | Motorized |  |
| Up to 36 | 2 | 2 | 3 |  |
| 36 to 54 | 3 | 3 | 4 |  |
| 54 to 72 | 4 | 4 | 5 |  |
| 72 to 108 | 5 | N/A | 6 |  |

| Light Gaps (Fabric width is narrower than the finished shade) |  |  |  |  |  |
| :--- | :--- | :--- | :---: | :---: | :---: |
| Light Gaps Per Side (inches) |  |  |  |  |  |
| Operating System | Liftrol | Inside Mount | Outside Mount |  |  |
| Cord Loop | Left or right control, <br> right is standard | Up to $3 / 4$ | 0 |  |  |
| Cordless | Handle operates shade | Up to $9 / 16$ | 0 |  |  |
| Motorized | Right control only | Up to $5 / 8$ | 0 |  |  |

Cassette valance typically has the largest light gap.
For standard 2-on-1 shades, controls will be located on the left side of the left shade and the right side of the right shade.
The tolerance for vane alignment is $1 / 8$ inch.

|  | Single Shade Critical Dimensions (inches) |  |  |  |
| :--- | :---: | :---: | :---: | :---: |
|  | Min Width | Max Width | Min Height | Max Height |

*These fabrics may be railroaded i.e. turned 90 degrees to achieve a shade width above the material width limits, to a maximum of 144 ". In such cases a seam will be sewn across the width of the shade, positioned as close to the top as possible. Any valance chosen will span the width of the shade, to maximum 144 ".

*These fabrics may be railroaded i.e. turned 90 degrees to achieve a shade width above the material width limits, to a maximum of 144 ". In such cases a seam will be sewn across the width of the shade, positioned as close to the top as possible. Any valance chosen will span the width of the shade, to maximum 144".

## Color Coordination Guide

Coordinating components are pre-selected based on fabric color.

Cassette/End Cap/Tensioner

Roller Bead Chain

## Banded Cloth Cord Loop

WHITE

NOTE:
The actual color of the hardware may vary from the samples in the color coordination guide.
Color lot variations may occur with fabric and/or hardware due to the process of color application. For the best color match, order all shades for a room at the same time. Pattern availability and color lot matching between orders cannot be assured.

## Pattern Fabrics

## Divine

## Motorization Overview

## LEVOLOR ${ }^{\circledR}$ InMotion ${ }^{\text {mw }}$

Experience motorization like never before with smart home integration and automated scheduling. Take full control of your shades using voice command, the intuitive app, or remote.

App - Shade Control
Phone sold separately

App-Routines Phone sold separately

- Upgrade to motorization to control shades with remote or app.
- Powered by an integrated, rechargable lithium-ion battery.
- Recharge with included magnetic micro-USB charger.
- Control shades with the 15 -channel remote (sold separately).
- Add the hub (sold separately) to sync with your Wi-Fi to enable app control and smart home integration.
- Organize shades by room.

- See real-time shade position and battery charge status.
- Store preset shade positions as scenes.
- Create routines by scheduling scenes by day of week and time of day, even proximity to sunrise or sunset.
- Adjust shades when you are away from home.
- Links with Amazon Alexa, Google Home, and IFTTT.
- App available to download for iOS and Android devices.

NOTE: LEVOLOR ${ }^{\circledR}$ InMotion ${ }^{\text {TM }}$ is not compatible with products from the previous LEVOLOR ${ }^{\circledR}$ motorization program. This includes blinds/shades that are controlled with the previous LEVOLOR app, 3-channel remote, and 6-channel remote.

## Visit levolor.com/InMotion for additional information.

## Cleaning and Care

All LEVOLOR Roller Shades have multiple cleaning options.

## DUSTING

Use a feather duster for regular cleaning.

## Note: Improper cleaning may void warranty

## VACUUMING

Use a low suction vacuum with a brush- type cleaner attachment; stroke lightly over the shade to clean.

## FORCED AIR

Blow away dirt and debris using clean compressed air.

SPOT-CLEANING/STAIN REMOVAL AT HOME
Use warm water and a mild soap, like Woolite ${ }^{\circledR}$ or Scotchgard ${ }^{\circledR}$, if needed.

## PROFESSIONAL INJECTION/EXTRACTION CLEANING

Call local on-site blind/shade cleaner that injects a cleaning solution into the fabric and extracts the dirty solution at the same time. The service is typically performed at home so you do not need to remove your window treatments.

Parts \& Components

[^0]:    *These fabrics may be railroaded i.e. turned 90 degrees to achieve a shade width above the material width limits, to a maximum of 144 ". In such cases a seam will be sewn across the width of the shade,
    positioned as close to the top as possible. Any valance chosen will span the width of the shade, to maximum 144".
