PLEASE NOTE:

Photos and illustrations are for inspiration only.
Not all product configurations are available in all countries.

Window blinds with a damaged or loose tension device or retractable cord that fails to fully retract pose a strangulation risk to children. To avoid this potential strangulation risk, consider purchasing cordless products or products with inaccessible cords.

Features

Natural Shades

Bali® Natural Shades are crafted from bamboo reed, slit bamboo, sisal, grass, and jute materials. They add natural color, texture, and dimension to your windows and create a comfortable atmosphere of casual elegance or simple sophistication.

- Standard, Old Style, and Looped Roman shade designs
- Wide selection of colors, textures, and unique weaves
- Cordless lift, continuous-loop lift, and motorized lift available
- 6" valance with horizontally oriented material is standard on shades except for motorized lift and continuous-loop lift
- 9" valance with horizontally oriented material is standard with motorized lift shades and continuous-loop lift

Natural Drapes

- Natural drapes feature the rolling qualities of drapery in vertically oriented natural shade material
- Features wand control in single or split stack
- Choose from standard fullness (when closed, waves slightly) or a 60% fullness (when closed, features drapery-like appearance)
- Palisade valance included with the drape
- Drape without valance (optional at no charge) is not recommended, as aluminum headrail and hardware will be visible; suggested when ordering wood cornice
 - Wood or fabric cornice is an option in place of valance; see wood cornice or soft treatments product information guide and price list
- Valance and returns will extend ½" further than drape width
- Edgebanding is required and complimentary on the drapes and standard valance
 - Select from 1" solid edgebanding
 - Valance will use matching edgebanding

NOTE: Not available with Blended Grain, Desert Haze, Divan, Faroe, Forage, Rugged Flax, Tarkine, and Walpole.

Features

The Beauty of Natural Shades

There is simply no substitute for the beauty of the materials used in natural shades. The colors and textures of bamboo, reeds, grass, and jute have a distinct character and one-of-a-kind look that synthetic materials can't match.

Unique Characteristics of Natural Shades

Asymmetry

Materials used in natural shades are naturally grown and harvested. Variations in shape, thickness, texture, and grain are to be expected from Mother Nature. While adding personality, these variations create asymmetry in the weave that may alter the appearance of the finished shades. Specifically, you may notice:

- **Uneven Spacing or Gaps**—differences in bamboo or reed shapes and thicknesses can create uneven spacing or gaps in the weave
- **Pattern Changes or Gaps**—varying thickness of grassy materials, tied knots, and splices can create visual disruptions in the weave pattern or gaps in the weave
- **Length Differences**—variations in thickness, bamboo joints, or reed sizes can create length differences from both sides of the shades
- **Bowing or Arching**—different drying rates of bamboo fibers on one side and skin on the other side of the bamboo slat can create a bowing or arching effect on the finished shades

To minimize variations, all materials used are hand selected to comply with strict specifications. These variations are not considered flaws, but rather normal characteristics expected from naturally grown materials.

Color

Evolving with age, the color of bamboo, reeds, jute, grasses, and other natural materials will change slightly. Depending on material composition, they may lighten or darken due to direct sunlight or other climatic conditions. Uncolored or natural materials will experience the most color shift, changing from a green color at harvest to a yellow-brown color over three to six months. Color matching of shades cannot be guaranteed as these are natural reactions to aging.

With character, however, comes inherent natural properties that may influence the appearance of the finished shade. Recognizing and understanding the characteristic traits of natural materials provides more satisfaction and enjoyment once you know why each shade is truly unique!

Stretching/Sagging

The natural elasticity of yarns, combined with the weight of the natural material, may cause shades to stretch or sag from 1" to 1½", and sliding panels to stretch or sag from 1" to 2" after installation. This is particularly noticeable on inside mount shades or shades that extend from ceiling to floor. Ordering shades shorter than needed will help compensate for stretching over time.

Tips

During the shipping process, the natural material may have shifted slightly due to its natural construction, causing slight shortening or uneven edges.

Height—If after installation, the shades are slightly shorter than ordered, grasp the bottom of the shades and gently pull to stretch to the preferred height. Some materials will also stretch by themselves over time.

Uneven Edges—Lightly tap edge of the shades with a flat edge (for example, a ruler) until even.

Frayed Edges—If threads come loose near the edges, use a sharp scissors to trim off stray threads.

Light Control and Privacy

Sheer: Allows the most amount of light into the room for a minimum amount of privacy and a view to the outside. Objects in the room can be seen quite clearly through shades.

Light Filtering: Allows light to gently filter through and provides privacy. Images and shapes may be seen through these shades.

Natural shades may have variations and visual inconsistencies in color, weave, grain, and texture. They may also crack or split, twist or bow, shrink or stretch, and change color over time due to aging, direct sunlight, or other climatic conditions. These unique characteristics are inherent in natural materials and are not considered defects in material or workmanship. Exact color matches cannot be guaranteed.

Size Considerations

Natural Shades

	Width		Height	
	Minimum (inches)	Maximum (inches)	Minimum (inches)	Maximum (inches)
Old Style and Standard Roman (Non-operational)	10 outside mount 10½ inside mount	96 single 144 multiple	12	120
Looped Roman	12 outside mount 12½ inside mount			120
Continuous-Loop Lift	24 outside mount 24½ inside mount			108
Cordless Lift	18 outside mount 18½ inside mount	Determined by square feet. See cordless size charts for more details.		
Multiple Shades on One Headrail	20½	144	12	See price charts
Motorized Lift	18 outside mount 18½ inside mount	Determined by square feet. See motorization product information guide for more details.		

Depth Requirements for Inside Mount

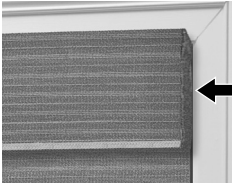

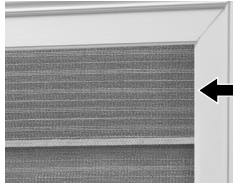

Type of Shade	Headrail Dimensions (inches)	 Partially recessed headrail in window casing/molding Minimum Depth Mount (inches)	 Fully recessed headrail in window casing/molding Flush with Casing (inches)
Continuous-Loop Lift Motorized Lift	5/8 x 2¼	¾	Standard valance: 3⅞
Cordless Lift	5/8 x 2¼		1½ Headrail - 2⅞ Standard Headrail - 3⅞
Turned Headrail	1½ x 5/8		1⅞ Standard Roman; 1 Old Style Roman

Natural Drapes

	Width		Height	
	Minimum (inches)	Maximum (inches)	Minimum (inches)	Maximum (inches)
Standard Drapery Fullness	16 outside mount 17 inside mount	192	20	96
60% Drapery Fullness				

NOTE: Minimum surface for outside mount: 3".

Depth Requirements for Inside Mount

Type of Shade	Headrail Dimensions (inches)		 Partially recessed headrail in window casing/molding* Minimum Depth Mount (inches)	 Fully recessed headrail in window casing/molding Flush with Casing (inches)
Wand Control	7/8 x 1½	Standard drapery fullness 60% drapery fullness	3⅞ 4½	8

*Shown with valance; aluminum headrail is covered by valance.

NOTE: Standard inside mount deduction is ½" for all control types.

Options

Summary

The following is a list of options for natural shades. Most options are available in all styles and colors. Limitations will be based on fabric width and fabric type. See detailed descriptions on the following pages. For surcharges and pricing, refer to price charts.

	Standard Roman	Old Style Roman	Looped Roman
Cordless Lift	•	•	
Continuous-Loop Lift	•	•	•
Motorized Lift	•	•	
Angle Top	•		
Cut-Outs	•	•	
Multiple Shades on One Headrail	•	•	•

No Charge Options: Natural Shades

- Direct mount (no installation mounting brackets)
- Side mount brackets available up to 42" wide
- Bay or corner window
- Clear cord cleats: standard
- Hem options: standard hem
- Hold down brackets^{††}
- Projection brackets: 3 1/8"
- Extended NY brackets
- Returns 2" short
- Turned Headrail (non-operational only)
- 1.5" headrail available with cordless lift only
- Valances included at time of order:
 - Standard 6": cord lift; bottom up/top down; and cordless
 - Standard 9": continuous-loop lift and motorized lift
 - No valance: optional

Surcharge Options: Natural Shades

- Continuous cord/chain loop
- Cord cleats: antique or solid brass
- Cord winder
- Cordless lift
- Cut-outs
- Edge banding[†]
- Liners
- Motorized lift
- Multiple shades on one headrail
- Specialty Shapes
 - Angle Top
- Valance options:
 - Standard 9"
 - Palisade 6"
 - Palisade 9": all control types
 - Deco-trim valance 9"
- Wood cornice: see cornices and valances product information guide

[†]Edge banding: Optional on shades or valances on most fabrics with horizontally oriented material; required on Sliding Panel, Natural Drapes, and valances with vertically oriented material. Complimentary when required.

^{††}Hold down brackets: Only available at time of order. Cannot be retrofitted. Not available for shades with edge banding.

Natural shades may have variations and visual inconsistencies in color, weave, grain, and texture. They may also crack or split, twist or bow, shrink or stretch, and change color over time due to aging, direct sunlight, or other climatic conditions. These unique characteristics are inherent in natural materials and are not considered defects in material or workmanship. Exact color matches cannot be guaranteed.

No Charge Options: Natural Drapes

- Control types
 - Wand control
- Ceiling mount brackets
- Edge banding[†]
- Stack right, left, or split
- Fullness: standard
- Valances:
 - Palisade 6"
 - Horizontal or vertical orientation
 - Palisade 9"
 - Horizontal or vertical orientation
 - Deco-trim valance 9"
 - Horizontal material orientation
 - No valance: optional

Surcharge Options: Natural Drapes

- Fullness: 60%
- Liners
- Wood cornice: see cornices and valances product information guide

Options

Continuous-Loop Lift: Natural Shades

- **For surcharge, see price charts**
- Available on Standard, Old Style, and Looped Roman shades
- Continuous-loop lift raises and lowers the shade and is color coordinated to the shade material
 - Shades under 30 square feet have color-coordinated cord
 - Shades over 30 square feet will use a nickel-plated steel bead chain loop in place of cord
 - When ordering different size shades for the same room, specify if bead chain is preferred for all shades
- Allows for easier operation of larger shades
- 9" valance is standard with the continuous-loop lift option; (6" valance not available)
- Available in the US only

Cordless Lift: Natural Shades

- **For surcharge and size restrictions, see price charts**
- Available on Standard and Old Style Roman shades
- Cordless shades offer a safer alternative for homes with children and pets
- Easy to use: to lower shade, pull down on the metal ring; to raise, pull the metal ring slightly and guide shade into the desired location.
- Not available with cut-outs, deco-trim, deco-pocket hems, or angle top shades
- 1.5" headrail available for select fabrics and sizes
- 6" valance is standard with Standard Roman shades
- Available in the US only

Standard Headrail Depth		No Liner		Privacy Liner		Room-Darkening Liner	
		Width		Width		Width	
		w < 30"	30" ≤ w ≤ 96"	w < 30"	30" ≤ w ≤ 96"	w < 30"	30" ≤ w ≤ 96"

	Medium	w < 25"	25" ≤ w ≤ 60"	w < 25"	25" ≤ w ≤ 60"	w < 40"	40" ≤ w ≤ 60"
	Heavy	Length ≤ 68"	SQFT ≤ 26	Length ≤ 65"	SQFT ≤ 25	Length ≤ 65"	SQFT ≤ 21.5
		w < 40"	40" ≤ w ≤ 60"	w < 40"	40" ≤ w ≤ 60"	w < 50"	50" ≤ w ≤ 60"
		Length ≤ 64"	SQFT ≤ 20	Length ≤ 62"	SQFT ≤ 18.1	Length ≤ 62"	SQFT ≤ 18.1

**Note fabric is not supplied for lengths greater than 86"*

Motorized Lift: Natural Shades

- **Refer to motorization product information guide for additional options, sizes, and pricing**
- Window treatments can be operated from virtually anywhere in the home
- Provides easy operation of hard-to-reach or large window coverings
- Efficiently manages energy (heat gain and loss)
- Operate multiple window treatments simultaneously or individually
- A safer alternative to accessible cords that are traditionally used to operate window coverings; ideal for homes with children and pets
- Easily integrated with home automation systems
- Low voltage motorization requires no costly electrical hard-wiring
- Multiple control and power options available

Details

- Motor located on the right underside of the headrail
- Multiple controls and power options available
- Available on standard and old style Roman
- Available with 9" valance only; no valance is optional
- Multiple shades on one headrail available; each panel will have a motor and power source
- Not available on looped Roman
- Available with bottom corner and bottom center cut-outs

NOTE: Motorization components and accessories have a five-year limited warranty, excluding batteries.

Options

Control Options: Natural Drapes

- Wand Control, no charge** (default control type)
- Ivory fiberglass wand positioned behind drape
 - Stack right, left, or split
 - Split stack will have two wands

Wand Control Chart

Finished Blind Length (inches)	Wand Length (inches)
Up to 30	12
30 ¹ / ₁₆ to 48	24
48 ¹ / ₁₆ to 77	36
77 ¹ / ₁₆ to 92	48
92 ¹ / ₁₆ to 96	60

Fullness: Natural Drapes

Standard Fullness Right Stack

- **For surcharges, see price charts**
- Standard fullness (when closed, waves slightly)
- 60% fullness (when closed, features drapery-like appearance)
- Palisade valance included at time of order; see valance options for available styles

60% Fullness Right Stack

Options

Liners: Natural Shades and Natural Drapes

- **For surcharges, see price charts**
- Liners are 100% polyester
- Available up to 96" wide on shades and 192" on drapes
- Privacy and room-darkening liner colors available
- All liners are neutral to the street
- Liner reversal available upon request

Privacy Liner

A privacy liner is a good choice for dining rooms, living rooms, and other semi-private areas, subduing the light that enters a room. Small pinholes of light may be visible through shades with privacy liners due to the attached cord rings; see room-darkening liners for enhanced light control. Objects appear as silhouettes from the outside.

Room-Darkening Liner

This liner blocks most incoming light and provides complete privacy. Ideal for bedrooms and media rooms.

Colors	Privacy Color Number	Room-Darkening Color Number
Cocoa	2297	6297
Taupe	2659	6659
Sand	2701	6701
Seal	2012	6012
Snow White	2909	6909

Edge Banding and Colors: Natural Shades and Natural Drapes

- **For surcharge, see price charts**
- Edge banding adds a framed color accent and can also eliminate material fray on edge of shade
- On cordless, edgebanding will only be on sides of shade
- 1" fabric banding is applied to sides and bottom of shade and valance
- Deco-trim valance may be ordered with edge banded shades, valance will not have edge banding
- See chart for colors
- Edge banding not available on deco-trim, angle top shades, cut-outs, or with hold down brackets

Natural Drapes

- 1" edge banding required on top and bottom of drapes: **no charge**
- Optional 1" edgebanding available on drape sides: **no charge**
- Lined drapes require edge banding on all four sides
- Use chart below for colors

Edge Banding	1" Color Number
Black	7000
Chocolate	7006
Cocoa	7001
Dark Beige	7005
Gray	7176
Light Sage	7173
Mink Gray	7174
Muslin	7172
Smoke	7175
Snow White	7170
Taupe	7008
Toffee	7002
Vanilla	7171

Options

Cut-Outs: Natural Shades

- **For surcharge, see price charts**
- Available with standard and old style Roman shades
- Bottom corner cut-out (diagram A):
 - Maximum width: 6" cut-out
 - Any height (up to the headrail)
- Bottom center cut-out (diagram B):
 - Maximum height: 5" cut-out
 - Maximum width must leave 3" on each side of the cut-out
- Not available with: hold down brackets, edge banding, cordless lift, continuous-loop lift, or looped Roman shades

Non-operational Angle Top: Natural Shades

For surcharges, see options pricing

- 3-day manufacturing time does not apply
- For angle top shades, supply all four measurements (A, B, C, D) as shown in the diagram below
- 6" (15.3 cm) and 9" (22.9 cm) standard valance only
- Valance requires gimp trim at the top edge by the headrail (A)
- Valance returns are not available
- Available as non-operational only
- Available as Standard Roman only

Minimum Width	18" (45.8 cm) (outside mount) 18½" (47.0 cm) (inside mount)
Maximum Straight Width	60" (152.4 cm) (outside mount) 60½" (153.7 cm) (inside mount)
Minimum Height	12" (30.5 cm)
Minimum Height (short side)	7½" (19.1 cm)
Maximum Height	86" (218.44 cm)
Maximum Degree of Angle	60°

Measuring Outside Mount:

1. Measure exact width and height of area to be covered. It is recommended that shades overlap window frame or opening by 1½" (3.9 cm) on each side.
2. Measure height of opening on left side and mark this dimension "left". Allow for overlap as desired: 1½" (3.9 cm) on top and bottom is recommended.
3. Measure height of opening on the right side and mark this dimension "right". Allow for same overlap as left side.
4. Factory will determine the angle from these three dimensions.

Options

Multiple Shades on One Headrail: Natural Shades

1/2" Gap

- For surcharges, see price charts

How to Measure

1. Measure overall width of area to be covered.
2. Measure width of the area each shade is to cover; measure and specify left shade first, continuing to the right.
NOTE: Minimum of 1/2" between shades for operating clearance.
3. Total width of all shades, plus clearance (gap), must equal the overall headrail width.
4. Use standard inside or outside measuring directions for height.
5. For patio doors, measure height to within 1" of the floor either from the ceiling or a point high enough above door to provide clearance; cords should be on outside edges of shades; outside mount (wall) installation is recommended for patio doors.

- Shades operate separately
- Controls can be on the right or left at no charge
 - Standard for two-on-one headrail: left panel—left control; right panel—right control
 - Standard for three-on-one headrail: left panel—left control; middle panel—common lift; right panel—right control
- Cordless and motorized lift
 - Two-on-one and three-on-one available—no charge
- Continuous-loop cord lift
 - Two-on-one available with control positions to the outside
 - Three-on-one available if the lift control is combined on all three shades; horizontal material alignment between panels is not guaranteed
- Liner options available
- Edge banding is available—will be attached around each panel
- Shades up to the maximum material width will have a continuous valance
- Shades over maximum material width will have a valance with each panel which are butted in between each panel gap
- Palisade valance will not be spliced at the same dimensions as the multiple blinds; palisade valances will be spliced evenly

NOTE: Horizontal oriented valances over 96" will be spliced in one to three places and will not align with shade panels. Vertically oriented material will be one continuous piece. Hardwood frame will be spliced at 94" with returns and 95" without returns.

Options

Bay and Corner Windows

- Available with cordless lift, continuous loop lift, or non-operational
- Bay and corner shades are used to butt two shades together in a corner window
- Depending on the angle, some corner shades cannot be raised to the same height
- Bay and corner shades not available with hold down brackets, Looped Roman shades, and multiple shades on one headrail
- Horizontal and vertical alignment can't be guaranteed

- Priced as standard shades, no additional surcharge
- Headrails will not be mitered
- Standard valances will not be mitered
- Palisade valances will be mitered

NOTE: Manufacturer will take appropriate deduction for corner/bay windows. If deductions are not required, do not order as corner/bay.

Front View

Front View

Measuring Information

Corner Window

Measure:

Width of each window from corner to the point you would like to cover.

Three-Sided Bay Window

Measure:

A and C: Width of side windows from the corners to the point you would like the blind to cover.

B: Width of the center window from corner to corner.

Angle A-B: Angle between windows (A) and (B).

Angle B-C: Angle between windows (B) and (C).

Measure bay angle using protractor or angle finder, or use two business cards in bay corner as illustrated and fax to customer service.

Four-Sided Bay Window

Measure:

A and D: Width of side windows from the corners to the point you would like the blind to cover.

B and C: Width of each window from corner to corner.

Angle A-B: Angle between windows (A) and (B).

Angle B-C: Angle between windows (B) and (C).

Angle C-D: Angle between windows (C) and (D).

Measure bay angle using protractor or angle finder, or use two business cards in bay corner as illustrated and fax to customer service.

Five-Sided Bay Window

Measure:

A and E: Width of side windows from the corners to the point you would like the blind to cover.

B, C, and D: Width of each center window from corner to corner.

Angle A-B: Angle between windows (A) and (B).

Angle B-C: Angle between windows (B) and (C).

Angle C-D: Angle between windows (C) and (D).

Angle D-E: Angle between windows (D) and (E).

Measure bay angle using protractor or angle finder, or use two business cards as illustrated and fax to customer service.

Options

Valance: Natural Shades

Standard Valance Horizontal Orientation

Palisade Valance Option B Shown

Cordless no charge options

- 6" valance with shade
- No valance is optional; unfinished headrail and hardware are visible

Continuous-loop lift and motorized lift no charge options

- 9" valance with shade (6" valance is not available)

Additional valance information

- Edge banding will be applied to the sides and bottom of the valance if option is chosen for complete finished shades
- Liner can be added to the valance; must specify privacy or room-darkening liner and color; see price charts for surcharge
- No valance is also an option; however, unfinished headrail and hardware will be visible.

Control Type/ Shade Options with Standard Valance	Full Recess Depth Including Valance (inches)	Standard Return Width Outside Mount (inches)	Standard Return Width Inside Mount (inches)	Minimum Return Width (inches)	Maximum Return Width (inches)
Cordless Lift	3 ³ / ₁₆	2 ¹³ / ₁₆	2 ¹ / ₄	1 ¹ / ₂	3 ¹ / ₂
Continuous Loop Lift	3 ³ / ₁₆	2 ¹³ / ₁₆	2 ¹ / ₄	1 ¹ / ₂	3 ¹ / ₂
Motorized Lift*	3 ³ / ₁₆	2 ¹³ / ₁₆	2 ¹ / ₄	1 ¹ / ₂	3 ¹ / ₂

*See motorization product information guide for more details.

- Special 2" valance return **length**: available upon request
- No liner or edge banding on valance returns

Valance: Natural Drapes

- No charge for palisade valance at time of order (must select option)
- Liner is required for vertically oriented palisade valance
- No valance is optional; aluminum headrail and hardware are visible
- Valance return height will match valance height option chosen

Deco-Trim Valance: Natural Shades

Seascape

This design is scaled to the width of the shade.

Dentil

This design will repeat with the width of the shade.

Cathedral

This design will repeat with the width of the shade.

Horizon

This design is scaled to the width of the shade.

• For surcharge, see price charts

- Distinctive valance designs with accent gimp
- Deco-trim valance designs are cut into the valance of the shade to a depth of approximately 2¹/₂"
- 9" deco-trim valance is measured from the top of the headrail to the lowest point
- Accent gimp must be selected with deco-trim valance
- Available with 9" valance only

Options

Valance Returns for Standard Valances

Window depths vary considerably depending on the age and style of the window. **Always** measure the window depth, regardless of the type of window treatment the client is considering. Knowing the depth when the order is placed can help prevent costly errors.

To calculate the return width, use this formula:

[standard return width] minus [client window depth] = special return width to order for inside mount blind

Valance: Palisade Valance Only: Natural Shades and Natural Drapes

Option A

Option B

Option C

Palisade valance only

- No charge option for natural drape at time of order

Natural material is mounted to a North American hardwood frame with mitered corner returns that attach separately. Valance upgrade options provide stable returns and a clean, uniform appearance.

- Valance can be ordered for use alone or to complement other window treatments
- Valance material is attached to a hardwood frame; includes mounting brackets (standard, ceiling, or projection brackets)
- Valance returns are available (must be specified at the time of the order)
- Valance returns are standard on outside mount natural palisade valance based on headrail depth

*See motorization product information guide for more details.

- Valances over maximum material width will be butted
- Edge banding is available on 6" or 9" horizontal or vertical oriented material; not available on deco-trim
- No liner or edge banding on valance returns

Options:

- 6" or 9" valance with horizontally material orientation; edge banding is optional (6" not available with motorized lift and continuous-loop lift).
- 6" or 9" valance with vertical material orientation; 1" edge banding top and bottom mandatory (6" not available with motorized lift and continuous-loop lift).
- 9" deco-trim valance; no vertical orientation option (must select accent gimp).
- Wood cornice: See cornices and valances product information guide.

NOTE: Horizontal oriented valances over 96" will be spliced in one to three places and will not align with shade panels. Vertically oriented material will be one continuous piece. Hardwood frame will be spliced at 94" with returns and 95" without returns.

Valance less than 96"

Valance over 96"

Options

Accent Gimp: Natural Shades

- **For surcharges, see price charts**
- Required with 9" deco-trim valance; optional on other horizontal material orientation valances and standard hems
- Not available with vertically-oriented material

NOTE: Must choose accent gimp color when a deco-trim style has been selected for the valance or hem.

- Shutters damage caused by improper maintenance, including sanding, improper washing, and use of razor blades or sealants
- Fabric damage caused by abuse, accidents, alterations, misuse, or failure to follow measuring/installation/use/cleaning/maintenance instructions

WARRANTY OBLIGATIONS

The obligations of Springs Window Fashions are limited to the replacement or repair of parts or products found to be defective. If repairs are made under this warranty, the repairs will be made with like or similar parts. It is at the sole discretion of Springs Window Fashions to determine whether product will be replaced or repaired.

Springs Window Fashions is not responsible for shipping costs or labor costs, for measuring or taking the product down, or for remeasuring or reinstalling the product.

Springs Window Fashions may defer actions on any claim for warping for a period of up to twelve (12) months from the date of the claim in order to permit acclimating to humidity and temperature conditions.

Warranty coverage applies to defective product only. Other window coverings in the room/household will not be replaced.

THIS WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WRITTEN OR ORAL WARRANTIES OR OBLIGATIONS AND LIABILITIES. THE DURATION OF ANY IMPLIED WARRANTIES FOR ANY PRODUCT IS LIMITED IN DURATION TO THE WARRANTY TERM APPLICABLE TO SUCH PRODUCT AS SET FORTH ABOVE.

SPRINGS WINDOW FASHIONS SHALL HAVE NO LIABILITY WHATSOEVER FOR INCIDENTAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES.

Some states do not allow the exclusion or limitation of incidental, punitive or consequential damages, so this limitation or exclusion may not apply to you.

No person is authorized to extend or alter this warranty.
